Purchase both Adventures of Angus McIntyre titles and save 10%!

Dingo Bingo Sight Vocabulary Series

Single User CD-ROMs (School Ed.)

Ages 6-Adult

\$49.95 each

Dingo Bingo is a highly motivational way of ensuring students reinforce the systematic development of words. There are ten lists of words and students must be proficient in one list before progressing to the next. The program monitors word accuracy, time taken per game, and error rate.

Single User CD-ROM (School Ed.) 630772

Dingo Bingo Multiplication Tables

Ages 6-13+ **\$49.95**
The **Dingo Bingo Multiplication Tables** game is a pleasant and efficient way of ensuring students systematically develop and then reinforce this fundamental maths skill. It can be used to develop knowledge of times tables or as a remedial technique to correct inadequate knowledge. In the program, students learn multiplication facts up to the twelve times table. There are six game boards for each level, including mixed tables, to ensure students are continually challenged.

Single User CD-ROM 623152

Targeting Maths

The **Targeting Maths Labs** were created in Australia and use Australian content including notes and coins. Within the structure of the game, children can explore, practice and improve their maths skills in a low-stress environment. On each CD there are over 20 games for all areas of the maths curriculum including number, operations, space, measurement and data.
